Bond International picks up Infinity Truck Tyre UK agreement

As part of a comprehensive distribution rationalisation strategy, Infinity Tyres Europe have announced the appointment of Bond international as their sole exclusive Infinity Truck Tyre distributor for the United Kingdom.

Martin West, General Manager, Infinity Tyres, explained: "We are looking to create single points of contacts across Europe for the Infinity brand. As Bond International currently is the exclusive distributor for Infinity PCR tyres in the United Kingdom, it makes sense to consolidate the Truck tyres into them as well. They are very well positioned through their call centre and multi-warehouse logistical operation, to handle the anticipated volumes of truck tyre business."

The "hero" product within the Infinity radial truck tyre range is the INF F865.

Available in 3 sizes, it is complemented by the INF D925 and INF A902 – all offer the following features:

- International and regional use
- Even wear
- Front axle fitment
- Excellent mileage
- Great directional ability
- Engineered to meet the most demanding situations
- Retreadable – Bandag certification

Further information on the Infinity truck tyre range is available at www.infinity-tyres.com.
