

Harjeev and Surender Kandhari from Al Dobowi with Reg Bond

The "Infinity Bond" gets Stronger and Stronger!!

A very special "get-together" was held recently at York Racecourse.

Over 30 staff from Bond International were present for an evening of business and pleasure. The event was hosted by key members of Infinity Europe and Al Dobowi.

The Bond personnel were welcomed by Harjeev and Surender Kandhari from Al Dobowi (Dubai). Al Dobowi hold the global distribution rights for Infinity tyres and 4 years ago appointed Bond International as the exclusive distributor for all the United Kingdom.

The relationship between Al Dobowi and Bond has grown and developed over the recent years and the event was both in recognition of the success achieved and also to inform the staff of news and developments.

Harjeev Kandhari presented "The Infinity Story" and also outlined some of the future goals and objectives for the development of the Infinity brand in the UK. Infinity tyres have a growing reputation - for good quality and durability at a very competitive price.

Reg Bond, Owner and Managing Director of Bond International, also outlined the potential for Infinity tyres across the UK and emphasised some of the logistical features of Bond. Bond has four warehouses across the UK and guarantees a 24 hour delivery service to all of its dealers.

Reg Bond was also delighted to announce an addition to his stable of horses. Infinity Bond (recent winner at Musselburgh) will be joined by Infinity World, an unraced attractive dark bay filly by Lucky Story.

The family feel to the evening was emphasised by the cabaret - a dancing and singing double act from two of Reg Bond's grandchildren!

For further information regarding the Infinity range, contact either Bond International or Rob Henderson of Infinity Tyres Europe.
